III/2025

Dear fellow air cargo enthusiasts,

The summer is here and with it the seasonal boom of capacity! As usually, we have some good news! Alongside our long-term friend Delta Air Lines, we have managed to welcome Air Canada for seasonal operation, as well as Etihad Airways (all year around). There's also a significant increase in narrow-body operations. The biggest news on the cargo front, however, is a new regular cargo connection to Chengdu!

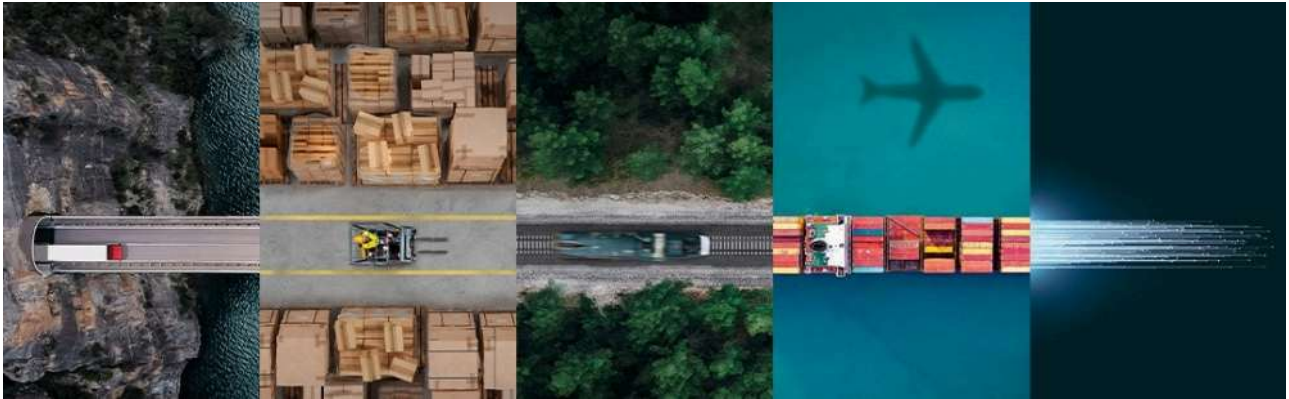

With new routes and carriers, we see a strong increase in cargo transported by air! In the first half of 2025, the numbers show growth of **more than 30%** year on year. Let's keep up the good work!

## Stay in Touch

### **Air Cargo Europe 2025 – we were there!**

We took part in the Transport & Logistic/Air Cargo Europe tradeshow in Munich. We had a nice booth, and I was happy to have a chance to meet all my international friends and maybe even start new business relationships! It was a tough, yet exciting, week with lots of business potential!

### **Prague and Chengdu Connected by Central Airlines**

It's been a long time since we had a direct cargo connection with China. That's why we are so happy to see the Central Airlines flight CTU-PRG-CTU, operated four times per week with B777F! Central Airlines is a private cargo airline based in Haikou, Hainan, China. The company was established in 2016. In Prague, Central Airlines is represented by Sky.XS.

## To Toronto and beyond with Air Canada

Every transatlantic flight is a pleasure to see, even though it's just for the summer. On 7th June, we had a chance to welcome seasonal flights of Air Canada to Toronto. Despite the rainy weather, we were happy to bring you this new route operated three times per week! Air Canada provides a wide range of interesting destinations throughout the American continent. In Prague, Air Canada Cargo is represented by Sky.XS and its freight is handled by Skyport.

## Etihad Airways – New Capacity to the Middle East and South Asia

The first Monday of June brought us a new wide-body route to Abu Dhabi. Etihad Airways launched this new four times per week operation with Boeing 787 Dreamliner. With a wide network in the Middle East, Far East, and South Asia, Etihad makes a perfect fit for shippers on these high-demand routes! In Prague, Etihad is represented by Kales and handled by Menzies Aviation.

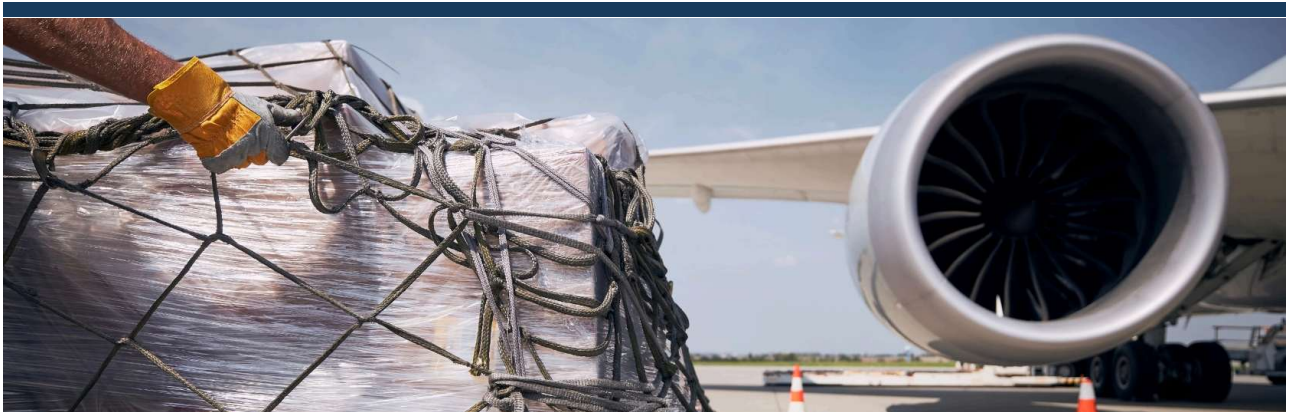

## Golden Support and WE-DEL Join Prague Airport Cargo Point

Prague Airport Cargo Point is a community platform driving innovation and cooperation to increase the presence of Prague in the European region. On 9th July, we welcomed two new members. **Golden Support** is a Czech-based company providing software solutions and operations support to all segments in air cargo industry to help with RFS, customs, e-commerce, cargo handling, and airline systems. **WE-DEL** is a young, fast-paced freight forwarding company specialised in tailor-made solutions for small and medium-sized companies. We are happy to have you both on board!

## Turkish Record-breaking Load on Passenger Flights

Turkish Cargo and Air Logistics are proud to share and announce the record-breaking loads on passenger flights from PRG operated by widebody aircraft. The TK1770 PRG-IST flight on 29th June, operated by passenger Boeing 777, uplifted a total of 34,384 kg of cargo. The high-density loads were scrupulously planned by the handling team (Enes Cargo) on 5 PMCs, 3 PAGs, 3 PLAs, and 1 PKC pallets. A week before, the same flight operated by passenger Airbus 330 carried 26,003 kg of cargo, making it a total of more than 60 tons of cargo carried on just two passenger flights.

## Smartwings Grows Its European Network

Our home-based carrier boosts the list of European destinations! As of the winter season, Smartwings opens regular flights to Barcelona, Bilbao, Brussels, Bucharest, Porto, Rome, and Toulouse, all operated by brand new Airbus A220s. This significant growth of network marks the return to the traditional destinations, with Prague as a natural transit point in the centre of Europe!
