## Direct Connection with Canada Is Back

Air Canada has launched ticket sales for its new direct service between Toronto and Prague. We will once again offer passengers direct seasonal connections to Canada from Václav Havel Airport Prague. The route will be operated by a Boeing 787-8 Dreamliner for 255 passengers with a frequency of three weekly flights, on Mondays, Wednesdays, and Saturdays, from 6 June to 29 September 2025.

The resumption and further development of direct long-haul connections are among the main priorities of the aviation business team. At the same time, both trends are also the result of Prague Airport's attractive incentive scheme and the new programme from the Czech tourism board – CzechTourism – for the support of long-haul routes, initiated by Prague Airport.
