#### TEMPORARY CHANGES TO CHECK-IN PROCEDURE AT VÁCLAV HAVEL AIRPORT PRAGUE

Prague Airport continues to implement projects designed to facilitate the airport's modernization and capacity increases, such as the reconstruction of the baggage sorting area in Terminal 1, which will partially affect the passenger check-in process this year. **From Sunday, 1 March 2020 until the end of August 2020, passengers on flights of 22 selected carriers will be checked in at Terminal 2 instead of Terminal 1.** For a period of time, the check-in process will not follow the division of the terminals to flights within and outside the Schengen Area. However, flights will still be boarded and handled at Terminal 1, just as now.

## PRAGUE AIRPORT HANDLES MORE THAN MILLION PASSENGERS IN JANUARY 2020

For the first time in history, more than a million passengers passed through Prague Airport in January. This means the airport handled a total of 1,051,029 passengers, a 7.4% year-on-year increase compared to January 2019. The main reasons for this great result during the winter season are a higher passenger load factor and the use of aircraft types with a larger seating capacity.
