VENDING MACHINES WITH PROTECTIVE GEAR AT PRAGUE AIRPORT

A number of protective measures have been in place at Václav Havel Airport Prague set up to protect the health and safety of passengers. **Now, passengers can buy face masks** and other gear preventing the spreading of COVID-19 from the vending machines

installed directly at the airport. **These vending machines offer face masks, respirators, protective shields, disinfectants and other hygienic aids, either in individual pieces or in sets.** Vending machines are located in the public and restricted areas of both terminals.

75th ANNIVERSARY OF RETURN OF CZECHOSLOVAK PILOTS SERVING IN RAF

Prague Airport has proudly commemorated the 75th anniversary of the **return of Czechoslovak pilots serving in the RAF during World War II from Great Britain to Prague**. In the middle of August, it was possible to spot two British DH82 Tiger Moth training biplanes in front of the historic Terminal 4. **Both planes, used by the British Royal Air Force**, surprised the spectators after taking-off from Prague with a low pass in formation. Moreover, after 75 years, the Spitfire Mk.XVI E fighter flew over the airport once again, performing a few simple manoeuvres. This important anniversary was also commemorated by the pilots themselves with a wreath laying ceremony by the monument dedicated to the important event in August 1945.

PRAGUE AIRPORT OPERATING RESULTS

According to current statistics, **over 250 thousand passengers** were handled at Václav Havel Airport Prague in July 2020, which **represents over a six-fold increase compared to June**. Most passengers flew between Prague and Burgas, Amsterdam and

Heraklion. In terms of countries, most travellers headed to Greece, Great Britain and Bulgaria.

The July 2020 operating results, which **exceeded the original estimates**, were mainly affected by the resumption of more scheduled connections, passenger demand for flights to popular summer destinations and capacity increases on some routes.
