## SURVEY: THREE QUARTERS OF CZECHS USING AIR TRANSPORT WISH TO TRAVEL ABROAD

If it were possible, 78% of Czechs would like to make a trip to their favourite foreign destination within two months at the latest, based on the findings of a survey conducted for Prague Airport by the Median agency. At the beginning of June, the survey was conducted on a

representative sample of 1,549 respondents over the age of eighteen who had travelled abroad by air at least once in the last 24 months. The survey also showed that **71% of respondents will use air transport to travel abroad as often as or even more than before the current crisis** caused by the spread of COVID-19. The survey was primarily intended to map the willingness of Czechs to travel abroad, and we perceive its first results as surprisingly positive in view of the current situation. It will be repeated to capture any changes and current trends.
