## RELAXED MEASURES FOR TRAVELLING TO THE USA

The news we have been awaiting impatiently for many months is here! The United States is expected to open the country to vaccinated tourists from

the European Union and the United Kingdom effective November 2021. Before boarding their US inbound flight, the passengers will just have to present a certificate of completed vaccination with a vaccine recognised by the United States alongside a negative COVID-19 test result, which will not be older than three days at the point of presentation. No tests or mandatory quarantine will be required

upon their arrival in the United States.

## EASIER TRAVELLING ALSO TO THE UK

The conditions for entering the country will also be relaxed by the United Kingdom. The country has been adjusting the travel traffic light system since October 2021. In the future, it will only feature two colours, green and red. Passengers from the green countries will be able to enter the territory of the United Kingdom provided they present a proof of completed vaccination and, at the

latest on the second day after their arrival in the country, they undergo a COVID-19 test with a negative result. Precise and comprehensive information about the conditions for travelling to the USA and the UK can be found on the website of the Czech [Ministry of Foreign Affairs](#).

## EFFECTIVE OCTOBER 2021, TRAVELLERS TO THE UNITED KINGDOM NEED PASSPORTS

We would like to bring it to your attention that it is only possible to enter the United Kingdom of Great Britain and Northern Ireland with a valid passport effective 1 October 2021. Due to the country's withdrawal from the European Union, it will no longer be possible to arrive to the UK

with a valid identity card only. This applies to all trips, including short tourist stays. Details can be found on the website of the Czech [Ministry of Foreign Affairs](#).
