Žádost:

„I am writing in my capacity as Sole Arbitrator in ongoing arbitration proceedings concerning the cancellation of a flight operated by TAP Air Portugal on 29 January 2026, involving Václav Havel Airport Prague.

For the purposes of establishing the relevant factual circumstances in these proceedings, I would be grateful if you could provide official clarification regarding the night-time flight restrictions (curfew) applicable at Prague Airport on the aforementioned date.

In particular, I kindly request confirmation of the following:
1. What were the applicable curfew hours at Václav Havel Airport Prague on 29 January 2026?
2. At what exact time did the curfew commence and end, expressed in local airport time?
3. Were there any specific restrictions applicable to aircraft departures and arrivals during the curfew period?

I would also appreciate clarification as to whether the applicable restrictions established a specific deadline for aircraft departures, as distinct from the general commencement of the curfew.

This information is sought for evidentiary purposes in the context of the aforementioned arbitration proceedings, in which the circumstances surrounding the cancellation of the flight are under examination.“

Poskytnutá informace:

As the operator of an international public airport, the Obliged Entity has only the following information at its disposal: During the winter season, only the following two night-time restrictions apply (and applied at the relevant time):

- between 22:00 LT and 06:00 LT, a maximum of 48 aircraft movements (both arrivals and departures) is permitted;
- between 22:00 LT and 06:00 LT, only aircraft falling within noise categories 1–9 are permitted.

No other restrictions were established within the coordination parameters/capacities.
With regard specifically to 29 January 2026, the Obliged Entity does not have information as to whether any restrictions were imposed due to weather conditions or for any other reasons. For information concerning any such restrictions, it is necessary to contact Air Navigation Services of the Czech Republic (Řízení letového provozu ČR, s.p.).
