

## **AIRPORT PRICE LIST**

**VALID FROM MARCH 26<sup>TH</sup>, 2017 TO MARCH 24<sup>TH</sup>, 2018**

This Airport Price List contains the principles determining the airport's charge policy for the period commencing on **March 26<sup>th</sup>, 2017** and ending on **March 24<sup>th</sup>, 2018**. The process of negotiating and consulting the price list with air carriers was conducted pursuant to the respective provisions of Article 42f of Act No. 49/1997, Coll. about Civil Aviation as amended (based on the transposed Regulation by the European Parliament and Council (ES) 12/2009). The document focuses on the charges connected to the aviation business of Prague Airport as follows:

- ✈ passenger service charges
- ✈ PRM charge
- ✈ landing charges
- ✈ parking charges
- ✈ charges for using airport's infrastructure
- ✈ noise charges

Publishing the proposed price list will allow air carriers to:

- a) Use to the fullest the generally appreciated principle of knowing the costs connected with using Prague Airport's services and infrastructure during the budgeting period;
- b) Plan in details their operations on existing and future connections between Prague and other destinations.

**Effective the start of the reviewed period, i.e. as at March 26<sup>th</sup>, 2017, Prague Airport will apply the following changes to its charge structure and to the amounts charged:**

### **1. Passenger Service Charges and PRM Charge**

- A separate PRM charge is being introduced for assistance provided to persons with reduced mobility equal to CZK 5 per every departing passenger and every passenger in transfer.
- Concurrently, the Passenger Service Charge is decreased to CZK 580 per every serviced departing passenger.
- The Passenger Transfer Charge is now set at CZK 212 per every transfer passenger.

### **2. Landing Charges**

- Landing Charges are increased by 6% on an average.

### **3. Parking Charges**

- The new contractual rate for contractual/long-term parking on the OP South (S51-S56) apron for aircraft with wingspan up to 20 m is introduced equal to CZK 24,950.
- Concurrently, the new rate for night parking on OPS contact stands is introduced equal to CZK 0.24 á min/t of MTOW upon compliance with the set prerequisites.

#### **4. Charges for the Use of Check-in Desks**

- The new charge for the use of mobile check-in desks equal to CZK 55 (excl. VAT) per every commenced 20-minute period is introduced.

All other aeronautical charges remain unchanged.

Prague Airport has negotiated with the air carriers involved in the review process a principle of automatic increase of all its charges by the previous calendar year's inflation rate, as published by the Czech Statistical Office. Thus, we reserve the right to apply the inflation rate, not charged at this time, at a later date. We expect to apply the automatic inflation rate principle in the next terms.

Flights subject to cash payments are exempt from the above-described system. If the real "BLOCK OFF" varies by more than 30 minutes from the charged "block off", the handling company will be required to settle the difference. Alternatively, an invoice will be issued for the difference between the invoiced amount and the amount calculated based on Prague Airport's data.

#### **Parking for the following reasons is exempt from the charge policy:**

- Flights delayed due to weather conditions at Prague Airport, ban on take-offs and parking after emergency landing;
- Flights transporting Heads of State, Government officials, members of Royal Families and Ministers on official business;
- Search and rescue flights authorized by the respective supervisory body in charge;
- Flights of the Civil Aviation Authority;
- Flights performed strictly for the purpose of checking and reviewing the function of devices used or designed for use as ground navigation systems, with the exception of flights performed in order to move aircraft performing the review;
- Air Medical flights, including secondarily and repatriation flights and flights directly connected with human life-saving missions;
- Apron parking on areas leased to air carriers and airlines.
