The Parking Service may also include additional services of Car Wash and eValet or other services agreed in the Contract (hereinafter referred to as "**Additional Services**").

the covered section cannot be reserved and the possibility of parking a vehicle in the covered section of the Flexi Parking area is not guaranteed by the Operator. The parking areas are monitored by a camera system. In the "PC COMFORT" and "PA SMART" Parking Houses, the Parking Service is provided in the regime of a guarded parking lot within the meaning of Section 2945 of the Civil Code. "PD HOLIDAY", "PB ECONOMY", "Flexi Parking" and all other parking areas of the Operator are not a guarded parking lot within the meaning of Section 2945 of the Civil Code. Details are regulated by the Operating Rules.

- 2.3. The Customer may use the Parking Service only once, continuously from the moment of entering the Parking to the moment of leaving the Parking.
- 2.4. The Car Wash Service is a service that allows you to book and pay in advance for a service consisting of washing the exterior and/or interior of your car through the Website to the extent and at the prices set out on the Website (the "**Car Wash Service**").
- 2.5. The Car Wash Service is provided by the Operator only in the area of the "PC COMFORT" parking house. The Car Wash Service is provided by the Operator only to those Customers who order parking in the "PC COMFORT" parking house according to the procedure set out below. The Customer acknowledges that the Car Wash Service will be performed before the Customer's car is parked in the parking space.
- 2.6. The Car Wash service is not provided by the Operator separately, but only in conjunction with the Parking Service, specifically with the Parking Service in the "PC COMFORT" parking house.
- 2.7. The Valet Parking Service (hereinafter referred to as "**Valet**") allows you to book and pay in advance for the Parking Service via the Website, which consists of the Operator taking the vehicle from the Customer at a designated location, the Operator moving the vehicle and parking the vehicle for a specified period of time in a parking area designated by the Operator, as well as the Operator moving the vehicle back to the designated location and handing the vehicle back to the Customer. - 2.8. The electric vehicle charging Additional Service (hereinafter referred to as "**eValet**") allows you to book and pay in advance for the Additional Service via the Website, which consists in extending the Valet Parking Service by providing a transfer of an electric vehicle or plug-in hybrid vehicle to a charging point, connecting the vehicle to the electrical grid and subsequent transfer back to the parking area during the Parking Period. The vehicle will be connected to the electrical grid usually for the period until the battery is sufficiently charged, whereby the battery is considered to be sufficiently charged at or above 80% charge. Electricity consumption for charging will not be charged separately to the Customer and will be included in the price of the Parking Service. Access to these parking spaces is only available to Customers using the "PC PREMIUM" Parking Service. The Customer acknowledges that these parking spaces cannot be reserved in advance and are subject to availability. The possibility of charging electric vehicles is not a contractually guaranteed part of the Parking Service (in this case it is also not the eValet Additional Service). The Operator does not guarantee the availability of such parking spaces or the availability of a free wallbox at such parking spaces. Charging

of electric vehicles may not be provided for the entire duration of the Contract, in particular for commercial or technical reasons or for reasons of force majeure.

- 2.10. The shuttle service is not part of the Parking Service. The availability of the shuttle service is subject to the carrier's operational situation, the Operator does not guarantee a specific schedule or time of arrival of the shuttle service and is not liable for any damages related to the use of the shuttle service, especially in case of missed flight departure. The use of the shuttle service is subject to the carrier's conditions of carriage. Child car seats are subject to the carrier's operational availability (usually one child car seat per shuttle vehicle is available). In this case, however, the withdrawal must be notified to the Operator no later than 24 hours before the start of the use of the Parking Service as set out in the Email Order Confirmation. The Operator recommends the Customer to use the Web Interface for any withdrawal from the Contract. If the Customer is notified the withdrawal from the Contract by email instead of the Web Interface, the Customer may be charged a fee in accordance with Article 12.3 of the Terms and Conditions.

12.3. If the Customer follows the procedure set out in Articles 12.1. and 12.2. of the Terms and Conditions when withdrawing from the Contract, the Operator shall refund the Price paid by the Customer. If the Customer does not use the Web interface to withdraw from the Contract, the Operator reserves the right to deduct a flat-rate fee of CZK 250 to cover the Operator's administrative costs associated with the processing and cancellation of the Order.

12.4. The Operator shall inform the Customer without undue delay that the Operator has received a timely and valid notice of withdrawal from the Contract from the Customer in accordance with Article 12.1 or 12.2 of the Terms and Conditions to the Customer's Email address.

12.5. The Price will always be refunded to the Customer to the account to which the payment card is registered, through which the Price was paid on the basis of the Order.
